

Stripey's Fortune Teller

To make your very own Stripey Stork Fortune Teller, you will need:

1. A piece of square paper.
2. Colouring pens.

Step 1: Crease a square piece of paper diagonally from each corner.

Step 2: Bring the corners to the centre of the paper.

Step 3: Turn over and bring the corners to the centre again

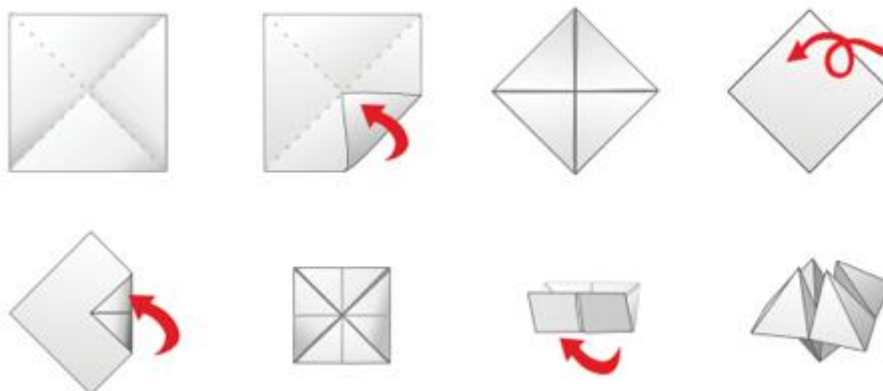

Step 4: Write the fortunes underneath the bottom of flaps. (8) (see below for inspiration).

Step 5: Write colours on the top of the flaps (8)

Step 6: Write numbers on the outside flaps (4)

Step 7: Fold into half and press the edges, then insert finger and thumb under the flap and open out.

There are lots of videos on youtube if you get stuck.

To use your fortune teller – ask someone to choose a number and then you count it out, then they choose a colour and you lift the flap to read their fortune written underneath.

Here are some of our favourite fortunes, we'd love to hear yours!
